Dear Harold,

To begin with, thank you for sending the book, I'm sure it will be both educational & enjoyable. Disappointed that it was not autographed.

As I told you when we last spoke, I am still willing to aid on the cases, since there is no affiliation w/ J. B. Stoner. The man simply disgusts me. Sometime when you have a few hours I would like to discuss my philosophy of advocacy with you. Not that I am worldly-wise already; but, consider also that a hurried, cursory explanation by me over the phone may not necessarily be indicative of "immaturity."

In any event, if you feel you are unable to work with me, so be it. However, there were approximately 8-10 other law students interested & you may wish to contact them regarding investigatory & legal research work that they would be able to do for you. Dean Lesar had the list of such students but, I believe he may have forwarded it to his son. If you are unable to locate the list

& are still desirous of help from law students, I am fairly certain that I could enlist some willingly students. I could either put them in touch with you or arrange a meeting of them with you the next time you are in St. Louis.

My apologies for my car trouble, but for some time now acts of god have been beyond my control!

Again, thank you for the book, and I sincerely wish you the best of luck in all your future ventures.

Take care,

Dana

P.S. Am sending tapes under separate cover.
